Fly-in/Drive-in Breakfast

Our May breakfast was our best yet! There were numerous planes that flew in and many drove in. There were three who flew in from Detroit. We had close to 50 people join us for breakfast. Donations were \$553.

The menu includes pancakes, sausage, eggs, biscuits, sausage gravy, breakfast casserole, toast, and fruit. For beverages, we serve coffee, milk, and orange juice.

Hope to see you at our next breakfast on June 24!

The weather is getting warmer and that makes it easier to fly.

Do you have a favorite place to fly-out for breakfast or lunch? Do you want company when you go? Think about contacting another VAA37 member to see if they are available to go along.

We still need a Vice-president and a Director. If you are a member and would like to serve on the Board, please make your wishes known to a Board member.

A nominating committee will be formed at the June board meeting and elections will be held at our November gathering. Let a board member know if you would be willing to serve on the nominating committee or would be willing to put your name on the ballot for an office. All positions are open.

About 20 members and guests including a new family with a son, came to the Annual Indy 500 party. We enjoyed hamburgers and hot dogs cooked by Danny Aavang, a variety of food brought in by everyone, and of course the Indy 500. Thanks to Brad Hartz for organizing this event. Three kids were surprised with a Young Eagles flight.

Our June 15 gathering will feature Larry Gering who will share his experience with an in-flight engine failure and the resulting repair.

Also at the June gathering, we will have a vote to change our Bylaws. As announced at the May gathering, the Board is proposing a Bylaws change: offer free membership to youth if they have free membership with EAA after receiving a Young

Young Eagles

Our 2023 Young Eagles Rally season has started. Your help is needed.

We have had great success with our Young Eagles program. Current and past Vintage members have flown over 3,300 kids since its inception in 1992.

We want to keep flying kids and need the assistance of our members. We need pilots and ground crew. That's where you, the members, come in. Please contact Laramie Resler if you want to help, see contact info below.

Dates for our upcoming rallies are June 17 and August 26. Let us know if you can help at any of these rallies. If you would like to help with flying kids, help with registration and printing, or escort kids, please contact Laramie Resler at 260-402-3478. You can call or text.

With the runway construction this summer, our plans are subject to change. Stay tuned!

Laramie Resler,
Young Eagles Coordinator

Eagles Flight. The proposed new membership is "Student Chapter Membership: A Student Chapter Member shall be any person under the age of nineteen (19) who holds a Student Membership of the Experimental Aircraft Association, Incorporated. Student Chapter Members are exempt from annual dues, may not hold any Chapter elected or appointed office and do not have voting privileges. Newsletters shall be delivered in a digital format only."

If you have any ideas for a Chapter gathering topic, let me know. Some suggestions: an aviation experience, fun places you have flown, an aviation topic you would like to learn more about, do you have knowledge about an aviation topic and would like to share that.

David Resler, President VAA37

INFORMATION FOR REFERENCE ONLY

Dates are subject to change, READ THE NOTAMS for up-to-date and complete flight planning information.

Currently, the contractor has proposed that **through 8/31/23** final grade work and paving will be taking place from the existing pavement out to 7,100'. During this timeframe, **RWY 27 is closed and RWY 9 is shortened to 3,850'** for landings and departures.

Beginning on or around 7/28/23 through 8/31/23 **RWY 9 - 27 will be closed**. This will be the period in which new markings will be put down for the 7,100' runway and LED runway lighting will be installed.

From 8/31/23 through 9/26/23 **RWY 9 - 27 will be closed during night-time hours and open during the day** at the full-length of 7,100' as we complete all the required lighting tasks.
